“...[Ending The Game] really helped me find myself and brought me back to reality that I’m not what I used to do and I’m not who he made me to be.”

—sex trafficking survivor, age 15

# ENDING THE GAME

*"Recidivism rates are dangerously high because survivors are fighting a critical battle between wanting to go back and wanting to strive for something better. ETG helps them understand, from a psychological perspective, why those feelings are there and how, using a variety of practical tools, they can embrace what's real and healthy."*
